

## INDEX TO VOLUME XI

### AUTHORS INDEX

#### A

ABSTRACTS, 90, 280, 375, 478, 578, 772, 867, 969, 1067  
D'ALISE, CORRADO. Dentofacial deformities and the thorax, 944  
—. Syphilis, tuberculosis, rachitis and malocclusion, 647

#### B

BACH, ERNEST N. Technic suggestions relating to appliances, 164  
BADCOCK, J. H. Two cases of absence of all eight molars, 449  
BISCH, LOUIS E. Psychotherapy, 547  
BLUM, THEODOR. Oral surgery and its relation to medicine and medical specialties, 953  
BLUMENTHAL, FRED R. Practical applications of the simpler forms of orthodontic appliances, 653  
BRUSSE, A. B. Malnourished children, 879  
BRYAN, W. A. Acute necrosis of the jawbones, 266  
BULL, F. BOQUET. A case of partial nasal obstruction from five to nineteen years of age, 450  
BUSBY, OSCAR E. Clinic, 437

#### C

CHAPMAN HAROLD. Expansion of the upper arch in a case in which only the lower arch is under treatment, 557  
CHARLES, S. WILSON. Movements of the teeth following loss of first permanent molar, 227  
CIESZYNSKI, A. The position of the dental axis in the jaws and the exact adjustment of the chief ray in the intraoral method with regard to maxillary irregularities. Table of angle dimensions for the chief ray, 742  
CLAREMONT, EDMUND. Delayed and arrested eruption, 442  
CLAREMONT, L. E. A case of deficiency of teeth and open bite, 1047  
CONOVER, C. STERLING. Orthodontia, and its importance to the general practitioner, 397

#### D

DELABARRE, FRANK A. Casting technic for individual inclined planes, 435  
—. Technic for sectional modeling compound impression, 439

DELALBRE, L. Ortho-rhino-odontology and active treatment of deafness, 815  
DEWEY, MARTIN. A consideration of lock springs for lingual appliances, 783  
—. A method of cleaning orthodontic models, 436  
—. A public health talk, 419  
—. Case report, 456  
—. Deciduous teeth as factors in normal development, 898  
—. Facial deformities, 1018  
—. Review of the tendency of postgraduate teaching in orthodontia, 528  
DOLAMORE, W. H. Inferior retrusion, 50  
DOYLE, BLANCHE A. The advantages of a dental hygienist in an orthodontic practice, 554  
DREYFUS, SYLVAN. An improved type of feeding bottle, 907  
—. Influence of infant suckling methods on the development of the maxilla and on the production of adenoid characteristics, 902  
—. Rational method of trimming models from a diagnostic standpoint, 1042

#### E

ENGELBACH, WM., AND McMAHON, ALPHONSE. Osseous development in endocrine disorders, 124

#### F

FERRIS, HENRY C. A new application of counter-spring control in the reduction of a malocclusion, Class II, Division I, for a patient eighteen years of age, with one application of force in nine months, 67  
—. President's address given before the New York Society of Orthodontists, 523  
FIRST INTERNATIONAL ORTHODONTIC CONGRESS, 1048  
FISHER, WILLIAM C. Some variations in the development of the lingual arch, 408  
FISK, G. VERNON. Preventive orthodontia for the general practitioner, 835  
FLESHER, WILLIAM E. Auxiliary springs for removable appliance, 1136  
FRIEDMAN, ROBERT. Control of postoperative dental pain, 87  
—. Further observations on the control of postoperative dental pains, 852  
FRIEL, E. SHELDON. Muscle testing and muscle training, 337

## G

GRAY, B. FRANK. Report of case, 72

## H

HAWLEY, C. A. The principles and art of retention, 315

—. The use of a round wire buccal arch preliminary to the use of the ribbon arch, 951

HENRY, O. Diet and nutrition in relation to the teeth, 540

—. Observation on some of the mechanical principles of orthodontic appliances, 1075

HIGGINS, JOHN A. A comparative study of the toxicity of local anesthetics, 1052

HINMAN, THOMAS P. Radiographing incisors and canines, 468

HOFFMAN, HENRY F. Method of presenting correct diet to orthodontia patients, 97

HOWARD, CLINTON C. Glandular influence considered in skeletal development featuring orthodontic types, 214

## I

IRISH, R. E. A new and efficient model trimmer, 986

## J

JERMAN, E. C. Protection from an x-ray standpoint, 1061

JOHNSON, JOS. E. A method of predetermining tooth movement as an aid to diagnosis and treatment of malocclusion, 692

## K

KADNER, A. Etiology of the anomalies of the teeth and a new and simplified method of treatment on the basis of the knowledge of etiology, 635

## L

LABAT, GASTON. A new outfit for local and regional anesthesia in dental and oral surgery, 959

LEHMAN, EDWIN P. The regeneration of bone, 504

LEWIS, PAUL D. Some observations on the etiology of malocclusion, 246

LIND, G. Remineralization of the enamel and dentine and its prophylactic value against caries dentum, 413

LOCKETT, A. C. Orthodontology, 813

LUNDSTRÖM, AXEL F. Maloclusion of the teeth regarded as a problem in connection with the apical base, 591, 724, 793, 933, 1022, 1109

## M

MCCALL, JOHN OPPIE. The relation of cusp inclination to alveolar integrity, 404

MCCOY, JAMES DAVID. A new application of an old principle in orthodontic mechanism, 493

—. Dental education: Past, present and future, 549

MCMAHON, ALPHONSE. (*See* Engelbach and McMahon), 124

MARGOLIS, HERBERT I. Improved method of obtaining dental insert in the facial cast, 308

MARSH, H. E. A case of postnormal occlusion, 1140

MARSHALL, JAY P. Cross currents in the old stream, 219

MAYER, J. W. A treated case, 452

—. Torsion: Some facts and probabilities, 1095

MILLBERRY, GUY S. A plan for dental education, 425

MILOSLAVICH, EDWARD L. Calcium metabolism in its relation to dental pathology, 116

MOORE, S. A. Some results of the abnormal loss of the deciduous teeth, 536

MORRIS, C. S. A very pronounced case of Class III, 454

## N

NICHOLL, ELSIE. Cleft palate cases, 666

## O

OUTLINE OF THE FIRST INTERNATIONAL ORTHODONTIC CONGRESS, 169

OVEY, WILLIAM. Cleft palate cases, 662

## P

PACKHAM, A. L. Some thoughts on the teeth and jaws, 234

PHILBROOK, B. F. Clinics, 367

PITTS, A. T. A case of congenital absence of the deciduous and permanent mandibular central incisors in four members of a family, 1138

PORTER, L. J. Clinic, 365

POTTER, HOMER A. Case report—second molar extraction, 256

## Q

QUNITERO, JAMES T. Muscle training in facial orthopedics, 1081

## R

RAPER, HOWARD R. A new kind of x-ray examination for preventive dentistry, 76, 173, 275, 370, 470, 575, 668, 764

ROBERTSON, T. M. Anomalies of dentition —missing teeth and supernumerary teeth, 65

—. Orthodontic treatment during physiologic rather than pathologic stage, 979

—. Root movement and bone development, 849

ROBISON, HOMER B. Facial muscle action as connected with orthodontic treatment, 602

## S

SCHWARZ, RUDOLPH. New cephalometric method and apparatus and its application to orthodontia, 910, 989  
SCOTT, ALLEN, Clinie, 434  
SHEARER, J. S. Electrical dangers in x-ray laboratories, 857  
SIMPSON, CLARENCE O. A reflex from the trigeminal branch of the society, 964  
—. Reporting on radiodontic examinations, 569  
—. Teaching of radiodontia in dental colleges, 1150  
SORRELS, T. WALLACE. A summary of the orthodontia section of the American Dental Association meeting at Dallas, Texas, 422  
—. President's address read before the Southwestern Society of Orthodontists meeting at Tulsa, Oklahoma, April 8 to 11, 1925, 630  
SPENCER, P. G. A lock for removable appliances, 1135  
—. Anti-mouth breathing device, 438  
—. Report of the meeting of Southwestern Society of Orthodontists, Tulsa, Okla., April 8 to 11, 1925, 432  
STANTON, F. L. On the application of mathematics to orthodontics, 618  
STILLMAN, PAUL R. Occlusion—the fundamental element in dental science, 822  
SVED, ALEXANDER. A new method of diagnosis for orthodontic cases, 295  
Synopsis of the Proceedings of the Tenth Annual Meeting of the European Orthodontological Society held at Amsterdam, August, 1924, 249

## T

TEMPLES, JOHN M. Welcome address to the Southwestern Society of Orthodontists, Tulsa, April 8, 1925, 633  
THOMSON, ARTHUR. Facial development, 705

TISHLER, BENJAMIN. The orthodontic treatment of adult cases, 687  
TRIER, JEROME H. Case report of an impacted maxillary canine, 441

## V

VAUGHAN, HAROLD S. A brief review of the frenum labium in relation to malocclusion and its treatment, 245  
VETTER, CHARLES, AND WINTER, LEO. Surgical case reports from the oral surgery clinic, 269

## W

WADSWORTH, FRANK. Mandibular movements, occlusion and correlation of orthodontia and prosthodontia, 327  
WATKINS, HAROLD G. Congenital absence of the tongue, 941  
WAUGH, L. M. Report of cases of early treatment, 558  
WINTER, LEO. A correct technic for the removal of deeply impacted mandibular canines, 457, 853  
—. A systematized technic for the removal of impacted maxillary canines, 182, 460, 562, 667, 732  
—. Pericoronitis or pericoronal infections, 1142  
—. (See Vetter and Winter), 269  
WILLIAMS, PERCY NORMAN. Case Report, 841  
WILLIAMS, REGINALD V. Orthodontia alloys, 1  
WOLFSON, A. Profilograph—A device for recording the profile of the face, points on the face and cranium, and any of the teeth in their actual relationship one to the other, 622  
—. The importance of proper gingival restoration in orthodontic treatment, 792  
WOOD, R. B. Growth disturbances in children from viewpoint of disturbed endocrine glands, 928

## Y

YOUNG, J. LOWE. Early treatment of malocclusion, 197

## GENERAL INDEX

### A

Abcessed molar tooth, facial hemiatrophy from, 1069  
Absence of eight molars, 449  
Acromegalias, 216  
Adenoid characteristics, influence of infant sucking methods on, 902  
Adult cases, orthodontic treatment of, 687  
Alabama Dental Association, 294  
Alloys, orthodontia, 1  
Alumni week of Dewey School of Orthodontia, 684  
Alveolar integrity, relation of cusp inclination to, 404  
American Board of Otolaryngology, 782, 878  
Dental Association, 293  
Society, summary of orthodontia section, 422  
Medical Association discontinues the section of stomatology, 775  
Society of Dental Radiographers, 96, 1154  
of Oral Surgeons and Exodontists, 492  
of Orthodontists, 96, 291, 387, 484  
Anesthesia in dental and oral surgery, local and regional, 959  
Anesthetics, local, comparative study of toxicity of, 1052  
Anomalies in dentition, 65  
of the teeth, etiology of, 635  
Anti-mouth breathing device, 438  
Apical base conditions abnormal, 1109  
malocclusion of the teeth regarded as problem connected with, 591, 724, 793, 933, 1022, 1109  
Appliances, technic suggestions relating to, 164  
Arch, lingual, development of, 408  
wire, locking and unlocking, 499  
Attachment, open tube, 495  
Auxiliary springs for removable appliances, 1136

### B

Bimaxillary crowding, 1111  
Biological and physiological considerations of orthodontia, 253  
Black tongue, 377  
Bleaching the teeth by ultraviolet rays, 480  
Bone development and root movement, 846  
regeneration of, 504  
substance, life-properties of, 251  
Bottle, feeding, improved type, 907  
suckling, in development of maxilla, 903  
British Society for the Study of Orthodontics, 874  
Buccal arch, round wire, preliminary to use of ribbon arch, 951  
cavity in wind instrument players, 90

### C

Calciprival odontopathia, 111  
Calcium metabolism in its relation to dental pathology, 116  
Cancer of the tongue, origin and cause of, 970  
Canines and incisors, radiographing, 468  
impacted maxillary, removal of, 441, 562, 667, 732  
mandibular, impacted, removal of, 853  
Carbohydrates, 101  
Caries, dental, 281  
dentium, prophylactic value of remineralization of enamel and dentine, 413  
Case of Class III, 454  
Case report by B. Frank Gray, 72  
by Martin Dewey, 456  
by J. W. Mayer, 452  
by Percy Norman Williams, 841  
Case reports, early treatment, 558  
Casting technic for individual inclined planes, 435  
Cephalometric method and apparatus, and its application to orthodontia, 910, 989  
Chemical composition of orthodontia alloys, 29  
Chicago Association of Orthodontists, 590  
Dental Society, 1073  
annual meeting, 1158  
Child-Health library, review of, 286  
Class III case, 454  
Cleaning orthodontic models, method for, 436  
Cleft palate cases, orthodontic treatment, 662  
orthophonic treatment, 666  
surgery, 280  
Clinic by Oscar E. Busby, 437  
by B. F. Philbrook, 367  
by L. J. Porter, 365  
by Allen Scott, 434  
Commission evil, 972  
Compression paradentosis, 1067  
Conduction and infiltration anesthesia, 94  
Congenital absence of deciduous and permanent mandibular central incisors in four members of a family, 1138  
of tongue, 941  
Counterspring control in reduction of malocclusion, 67  
Cretins, 216  
Cross currents in the old stream, 219  
Cusp inclination, relation of, to alveolar integrity, 404

### D

Dangers, electrical, in x-ray laboratories, 857  
Deafness, ortho-rhino-odontology in treatment of, 815

Deciduous teeth, abnormal loss of, 536  
     as factors in normal development, 898  
 Deficiency of teeth and open bite, 1047  
 Deformities, facial, 1018  
 Dental axis, position of, in the jaws and the exact adjustment of the chief ray in the intraoral method with regard to maxillary irregularities, 742  
 caries, 281  
     etiology of, 1067  
 chemistry and dental formulary, 93  
 disease, relation of systemic infection to, 971  
 drawing, 385  
 education, 482, 582  
     a plan for, 425  
     past, present, and future, 549  
 health talks sponsored by the Public Service Committee of the Chicago Dental Society, 876  
 hygienist in an orthodontic practice, 554  
 infection, relation of, to systemic disease, 579  
 insert in facial cast, improved method of obtaining, 308  
 and oral surgery, outfit for local and regional anesthesia, 959  
 pain, postoperative, 87, 852  
 roentgenography, rôle of, in diagnosis of oral sepsis, 282  
 science, occlusion a fundamental element in, 822  
 sepsis, ocular changes in relation to, 867  
 Society of the State of New York, 290, 876, 977, 1073  
 Dentine, remineralization of, 413  
 Dentistry, relation of, to obstetrics, 578  
 Dentition, anomalies in, 65  
 Dentofacial deformities and the thorax, 944  
 Dentomaxillary deformities, genetic causes of, 250  
 Dewey School of Orthodontia, alumni week of, 684  
 Diagnosis, new method, for orthodontic cases, 295  
     of oral foci of infection, 867  
     trimming models from standpoint of, 1042  
 Diet, method of presenting correct, to orthodontia patients, 97  
     and nutrition in relation to the teeth, 90, 540  
 Distocclusion, 1127

**E**

Education, dental, 425, 482, 582  
     past, present and future, 549  
 Electrical dangers in x-ray laboratories, 857  
 Emphysema of the face, 377  
 Enamel and dentine, remineralization of, 413  
 Enamel, life of the, 282  
 Endocrine disorders, osseous development in, 124  
     glands, disturbed, in relation to growth disturbances in children, 928  
     in relation to dental nutrition, 478  
     influences on body development, 215

Endocrines and preventive dentistry, 375  
 Eruption, delayed and arrested, 442  
 Ethics and referred patients, 869  
 Etiology of anomalies of the teeth, 635  
     of dental caries, 1067  
     of gingival pathology, 772  
     of malocclusion, 246  
 European Orthodontological Society, meeting held at Amsterdam, 249  
 Everyday mouth hygiene, 871  
 Expansion of upper arch in case in which only lower arch is under treatment, 557  
 Extraction of teeth, 868  
     second molar, 256

**F**

Facial cast, dental insert in, improved method of obtaining, 308  
 deformities, 1018  
 development, 705  
 hemiatrophy from abscessed molar tooth, 1069  
 muscle action as connected with orthodontic treatment, 602  
 muscles, 1084  
 orthopedics, muscle training in, 1081  
 Fats, 103  
 Feeding bottle, improved type, 907  
 First District Dental Society of the State of New York, 194, 492, 686  
 First International Orthodontic Congress, 191, 873, 1048  
 Food and the teeth, 99  
     combinations, 98  
 Forsyth Dental Infirmary for children, 875  
     should it be controlled by a university, 1155  
 Frakturen der Kiefer, 1071  
 Frenum labium in relation to malocclusion and its treatment, 245

**G**

Gas cylinders, compressed, caution in using, 1071  
 Genetic causes of dentomaxillary deformities, 250  
 Gingival pathology, etiology of, 772  
     restoration in orthodontic treatment, 792  
 Glandular influence considered in skeletal development, featuring orthodontic types, 214  
 Gnathostat, 921  
 Growth disturbances in children from viewpoint of disturbed endocrine glands, 928

**H**

Historical sketch of American Society of Orthodontists, 389  
 Hypogonads, 216

**I**

Impacted mandibular canines, technic for removal of, 457, 563  
     maxillary canine, 441, 562  
     technic for removal of, 182, 460, 667, 732

Impressions, modeling compound, technic for sectional, 439  
 Incisors and canines, radiographing, 468  
 Inclined planes, casting technic for individual, 435  
 Infection of the dental pulp, adventitious dentine and, 773  
 Infections, pericoronal, 1142  
 Inferior retrusion, 50  
 International Congress of Radiology, 1158  
 Orthodontic Congress, first, 169, 1048  
 Interproximal roentgenographic examinations, 81

**J**

Jawbones, acute necrosis of, 266  
 Jaws and teeth, some thoughts on, 234  
 Johnny Neanderthal, 288

**K**

Kentucky State Dental Association, 96

**L**

Lingual appliances, lock springs for, 783  
 arch, some variations in development of, 408  
 wires, breakage in, 9  
 lock, 367  
 Lock for removable appliances, 1135  
 springs for lingual appliances, 783

**M**

Malnourished children, 879  
 Malocclusion and its treatment, frenum labium in relation to, 245  
 and syphilis, tuberculosis and rachitis, 647  
 counterspring control in reduction of, 67  
 early treatment of, 197  
 etiology of, 246  
 of teeth regarded as a problem in connection with apical base, 591, 724, 793, 933, 1022, 1109  
 predetermining tooth movement as an aid to diagnosis and treatment, 692  
 Malocclusions belonging to Bolk's "Denture of the future man," as a new class in orthodontological system, 254  
 Mandibular canines, removal of deeply impacted, 457, 853  
 movements, occlusion and correlation of orthodontia and prosthodontia, 327  
 Mathematics, application of, to orthodontics, 618  
 Maxilla and nasal structures, relation of development between, 378  
 development of, influence of sucking methods on, 902  
 Maxillary canines, impacted, removal of, 182, 460, 562, 667, 732  
 Meat, 101  
 Mechanical principles of orthodontic appliances, 1075  
 Medical profession, does the, appreciate importance of oral hygiene, 382

Medicine and medical specialties, oral surgery in relation to, 953

Milk, 99  
 Missing teeth, 65  
 Model trimmer, new and efficient, 986  
 Models, orthodontic, method for cleaning, 436  
 Molar, first permanent, movement of teeth following loss of, 227  
 Molars, absence of eight, 449  
 Morison, James Beattie, obituary, 289  
 Mouth hygiene, everyday, 871  
 Movements of the teeth following loss of first permanent molar, 227  
 Multilocular cyst of the mandible, 269  
 Muscle training and muscle testing, 337  
 in facial orthopedics, 1081

**N**

Nasal obstruction, partial, from five to nineteen years, 450  
 structures, and maxilla, relation of development between, 378  
 Neanderthal, Johnny, 288  
 Necrosis of the jawbones, acute, 266  
 phosphorus, 376  
 New York Society of Orthodontists, 96, 194, 877  
 President's address, 523  
 Normal development, deciduous teeth as factors in, 898  
 Nourishment of children, 879  
 Nutrition and diet with reference to the teeth, 90, 540

**O**

Obstetrics, relation of dentistry to, 578  
 Occlusion, normal, as related to centric occlusion, 584  
 fundamental element in dental science, 822  
 postnormal, 1140  
 Ocular changes in relation to dental sepsis, 867  
 complications of dental origin, 969  
 Odontoplasty, present status of, 480  
 Open bite, deficiency of teeth and, 1047  
 tube attachment, 495  
 Operative dentistry, aids to, 384  
 for children, 588  
 Oral foci of infection, diagnosis of, 867  
 hygiene, does medical profession appreciate importance of, 382  
 sepsis from the viewpoint of the aurist and rhinologist, 580  
 surgery in its relation to medicine and medical specialties, 953  
 Orthodontia alloys, 1  
 and its importance to the general practitioner, 397  
 and prosthodontia, correlation of, 327  
 as a public health measure and the seventh International Dental Congress, 585  
 biological and physiological consideration, 253  
 cephalometric method and its application to, 910, 989

## Orthodontia—Cont'd

for the general practitioner, 772  
 patients, presenting correct diet to, 97  
 preventive, for general practitioner, 835  
 postgraduate teaching in, 528  
 section American Dental Society, summary of, 422  
 Orthodontic appliances, mechanical principles of, 1075  
 practical applications of the simpler, 653  
 cases, new method of diagnosis, 295  
 Congress, First International, 169  
 mechanism, new application of an old principle in, 493  
 models, method for cleaning, 436  
 treatment during physiologic rather than pathologic stage, 979  
 gingival restoration in, 792  
 of adult cases, 687  
 of cleft palate cases, 662, 666  
 Orthodontics, application of mathematics to, 618  
 Orthodontist and dentist, cooperation between, in prevention of irregularities of teeth, 254  
 Orthodontology, 813  
 Ortho-rhino-odontontology and active treatment of deafness, 815  
 Osseous development in endocrine disorders, 124  
 Ossification of membranous bone in embryo, 507  
 Osteomyelitis of the mandible, 269  
 Ownership of films and plates, 280

## P

Pain, postoperative dental, 87, 852  
 Paradentosis, compression, 1067  
 conception of, 1068  
 Parathyroids in calcium metabolism, 118  
 Pericoronitis or pericoronal infections, 1142  
 Peridontoclasia, treatment of, with a polyvalent vaccine, 969  
 Petition, an unusual, 975  
 Phosphorus necrosis, 376  
 Physiologic rather than pathologic stage for orthodontic treatment, 979  
 Postgraduate teaching in orthodontia, 528  
 Postnormal occlusion, 1140  
 Postoperative dental pain, 87  
 control of, 852  
 Predetermining tooth movement as an aid to diagnosis and treatment of malocclusion, 692  
 President's address before New York Society of Orthodontists, 523  
 before Southwestern Society of Orthodontists, 630  
 Preventive dentistry, endocrinines and, 375  
 x-ray examination for, 76, 173, 275, 370, 470, 575, 678, 764  
 orthodontia, for general practitioner, 835  
 Professional endorsements, responsibility of, 284  
 Profilograph, 622  
 Prognathism of upper jaw, 937  
 Prosthodontia and orthodontia, correlation of, 327

Protection from x-ray standpoint, 1061

Proteins, 100

Psychical defects, connection of, with anomalies of teeth and jaw, 254

Psychotherapy, 547

Public health talk, 419

Pus-swallowing, 479

Pyophagia or pus-swallowing, 479

Pyorrhea, prevention of, 771

## R

Rachitis and malocclusion, 647

Radiodontia, dental radiography and diagnosis, 285  
 teaching of, in dental colleges, 1150

Radiodontic examinations, reporting on, 569

Radiographic examination for preventive dentistry, 76, 173, 275, 370, 470, 575, 678, 764
